

Technical  
Specifications

**Xeo**

---

Epidermal Cooling    Continuous epidermal temperature regulation

---

Energy Control        Real-time calibration

---

Weight                  135 lbs.

---

Dimensions            12" x 19" x 35"

---

System Cooling        Internal, self-contained

---

Electrical              115V/20A or 230V/20A

---

Technical  
Specifications

**Titan**

---

Epidermal Cooling    Continuous epidermal temperature regulation

---

Energy Control        Real-time calibration

---

Weight                  135 lbs.

---

Dimensions            12" x 19" x 35"

---

System Cooling    Internal, self-contained

---

Electrical            115V/20A or 230V/20A

---

Technical Specifications **Vantage**

---

Wavelength        1064 nm

---

Fluence            Up to 300 J/cm<sup>2</sup>

---

Spot Size          Integrated 3, 5, 7 or 10 mm

---

Pulse Width        Automatic 0.1 - 300 msec

---

Repetition Rate   Single shot to 10 Hz

---

Aiming Beam      Yes, adjustable size

---
